

DHYEY TRIVEDI

BCA STUDENT • FRONTEND / SOFTWARE DEVELOPMENT • AI & PRODUCT PROJECTS

Ahmedabad, Gujarat, India | +91-XXXXXXXXXX | your.email@example.com | GitHub: github.com/yourusername | LinkedIn: linkedin.com/in/yourprofile

PROFESSIONAL SUMMARY

BCA student and active technology-project contributor with hands-on exposure to frontend development, Python, JavaScript, C/C#, Java, SQL, AI-assisted product development and hackathon-based problem solving. Built and showcased practical products including a claymorphism Habit Tracker, SpendSnap expense/investment tracker, Campus360, Smart Agri Yield, and IoT/AI concepts. Recognized through hackathon finals, internal wins, cultural achievements and coordination roles. Interested in software development, frontend engineering and Python backend development.

TECHNICAL SKILLS

Languages	Python, C, C#, Java, JavaScript, SQL, HTML, CSS
Development	React, Vite, Tailwind CSS, .NET Framework, REST/API concepts, responsive UI, PWA concepts
Tools	Git, GitHub, VS Code, Figma Make, Lovable, Antigravity, Supabase, Vercel, Render, Canva/Gamma

SELECTED PROJECTS

Habit Tracker Web App | *React / TypeScript / Tailwind / Supabase*

Built a mobile-first habit tracking PWA concept with claymorphism UI, authentication, streaks, check-ins, progress visualization and a responsive product experience.

SpendSnap — SaaS Expense Tracker | *React / Python-focused backend roadmap / Supabase*

Designed an expense and investment tracking product with categories, daily/weekly/monthly summaries, insights and CSV-export workflow.

Smart Agri Yield | *AI/ML concept • SIH 2025*

Worked on a smart agriculture solution using satellite/NDVI-oriented data and Redis-oriented architecture concepts for yield-related analysis.

Campus360 | *Web application • College ecosystem*

Developed a college-focused concept for student services including complaints, events and campus interactions.

Project Amrit | *IoT project • AiRA LAB*

Contributed to the first IoT project showcased during AiRA LAB activities, demonstrating practical hardware/software project exposure.

ACHIEVEMENTS & COMPETITIVE HIGHLIGHTS

- Youth Festival 2024 (Mime) — Winner at zonal + interzonal level; received trophies/certificates.
- Smart India Hackathon internal 2026 — 2nd rank for Smart Incense Drying hardware concept.
- Hack Baroda 2026 — Semi-finalist with Social Media Post Analyzer project.
- IIM Indore Hackathon 2026 — Finalist.
- AI Image Creation Contest 2026 — Winner with an AI-generated clay-doll artwork.
- AI Cyber Image Creation Contest 2026 — Top 8 with manga creation.
- International Conference 2026 — Poster presentation on XAI in Education.
- Activity report records 15 certificates across academic, technical, cultural and innovation activities.

LEADERSHIP, COORDINATION & CAMPUS ENGAGEMENT

- Coordinator — AI Powered Bootcamp 2026; supported event execution and participated in AI content-creation activities.
- Member, Cultural Committee — Yugma 2026; contributed to college cultural-event execution.
- Member + Coordinator — AiRA LAB Inauguration 2026; supported event coordination and project showcasing.
- Active participant across SIH 2025, Odoo Hackathon, PSB × IIT Hyderabad, Bhartiya Antriksh/ISRO Hackathon, UNSECO Hackathon, IIIT Pune Hackathon, C-Tag Workshop and technical talks.

EDUCATION

Bachelor of Computer Applications (BCA) — L J College of Computer Applications, Gujarat University | Semester 5

SSC: 77% • HSC (General): 86.86%

ADDITIONAL

Member — AiRA LAB (Artificial Intelligence Research & Analysis Lab) • Academic project work guided by Prof. Parth Joshi • Strong interest in Python backend development, frontend engineering and AI-enabled products.
